SOL'S FINISHING
100% TECHNICAL

SUBLIMA: its composition (100% polyester) and its jersey quality give it a « cotton feel » and an optimal quality for sublimation. Whatever the quantities, **SOL'S SUBLIMA** will amaze with its impressive results for visuals and the subtlety of the printing.

With published Corporate Citizenship reports since 2004, Gildan's Corporate Social and Environmental Responsibility commitment and leadership is well established and proven. The pillars of Gildan's Genuine Stewardship programme include People, Environment and Community.

PEOPLE

Gildan is one of the leading employers in the communities where we operate, committed to respecting our employees and their rights as well as all applicable local and international labour standards. These fundamental principles are embedded in our Code of Conduct and applied at each of our manufacturing facilities. Our labour compliance programme has been accredited by the Fair Labor Association and all of our mature sewing facilities are WRAP certified. We invest heavily in workplace infrastructure and safety and offered over 865,000 hours of training globally in 2012. Our compensation and benefits programmes are designed to promote employee retention and development, and include benefits such as subsidized meals, transportation and training programmes. Most of our facilities offer our employees free in-house medical clinics, a valuable resource for our employees.

ENVIRONMENT

As a large-scale manufacturer, we have a responsibility to continuously seek ways to reduce our overall environmental footprint. Our biological wastewater treatment system – Biotop – treats our wastewater using micro-organisms, gravity and sunlight. To further illustrate Gildan's commitment to environmentally responsible manufacturing, here is some of what we have done:

- Using our Biomass systems, which burn agricultural waste, we are able to increase our consumption of energy that comes from renewable sources.
- In 2012, we recycled 83% of our total waste.

We are a large purchaser of USA cotton, a highly regulated cotton crop, grown and harvested using conservation agricultural practices and under strict oversight of USDA, USEPA and OSHA guidelines. Our products all carry the Oeko-Tex® Standard 100 certification, your assurance that our products contain no harmful chemicals or materials.

COMMUNITY

Gildan is a positive force for social development in the communities we operate, investing in literacy training, vocational training and advanced education. To date, Gildan has invested over $1 million USD in the Instituto Politécnico Centroamericano, a Honduran technical institute training locals in the apparel, textile and electromechanical fields. We provide financial support to local community schools for kids, provide medical care to our employees and their families, and actively support local communities through our manufacturing infrastructure investments and long-term commitments.

YOUR MATERIALS GUIDE

YARN

SOL'S products are made with superior quality yarns – yarns 24, 26, 28, 30 & 40 according to the weight of the material. The thicker the yarn, the heavier the material.

RIB 1X1

Knitting process which leaves the material supple and comfortable. Also note that we use combed cotton for its softness.

COMBED COTTON

With long fibres. So called because the yarn has been combed to remove impurities and shorter fibres, making the material smoother and stronger. Perfect for digital printing.

RING SPUN

Our T-shirts are knitted with superior quality Ring-Spun making them soft, pleasant to wear and beautiful-looking – the quality European answer to American knitwear using open-end cotton, more loosely-woven and less sophisticated.

JERSEY

This basic knitting makes the material soft, strong and supple with a smooth surface ideal for all sorts of printing.

POLAR FLEECE

Knitted polyester microfibres. The material is thoroughly brushed on both sides, and ressembles fleece. All our polar fleeces have anti-pilling treatment.

ELASTHANE

A stretchy yarn mixed with cotton for greater comfort.

SOFTSHELL

Material consisting of three layers: the outer layer is neoprene-based with added elasthane, the inside layer is a micro fleece, with a technical layer in-between. The material is insulated for warmth, water-resistant, breathable and wind-proof.

SLUB JERSEY

100% cotton slub jersey is a very soft, elegant, very modern-looking material with irregular aspect. Our slub is a fine material which gives excellent printing results.

OXFORD

Soft, very strong material used for shirts. Colored yarns are used for the warp while white yarns make the weft, emphasizing the plaiting effect.

PIQUÉ

A very comfortable kind of material, used mainly for polo shirts. SOL'S piqué has a particularly smooth surface thanks to its combed cotton perfect for all types of printing.

ELASTHANE POPLIN

Cotton poplin with added elasthane – a very stretchy yarn – for greater comfort.

FLEECE

Heavy jersey knit with polyester and cotton. Its inside surface has been brushed making it warm and soft.

TWILL

Sergé cotton or cotton mix with thin, oblique ribs.
